MEMORANDUM FOR:
Chief of Station, Vietnam

25X1

SUBJECT : Responses to NSSM 1

1. Per your request and for your information, attached is one complete copy of our responses to the twenty-nine questions on Vietnam posed in National Security Study Memorandum No. 1. Your views and those of your colleagues were factored into these responses and, as we have already indicated in cable traffic, were of great value.

2. We have recently received a copy of the parallel Department of Defense reply, which is a very thick document basically drafted by the Office of the Assistant Secretary for International Security Affairs but replete with dissenting judgments on the part of the Joint Staff and COMUSMACV. Should you desire to see this DOD document, we can make arrangements to pouch you a copy. It is a very bulky work, however, which would probably not repay the time acquired for you or anyone else in the Station to read it in its entirety.
